

A simple guide to RSN online Spreadsheets – Analysis of claimant counts

The analysis of claimant count spreadsheet provides a breakdown for each authority between rural and urban claimant counts based on Lower Super Output Areas. It also ranks each area type against all authorities and authorities of a similar urban/rural breakdown to allow relative comparisons.

The data was collected as of March 2013.

To select the authority of interest, please follow these instructions:

Analysis of claimant counts		guide to using this spreadsheet	
Mar'12			
Arun		please select your authority of interest	
Large Urban			
		Rural Claimant Count in selected Local Authority Area	Urban Claimant Count in selected Local Authority Area
Claimant Count (% as a proportion of working age population)		n/a	2.86%
Claimant Count		n/a	1060
Claimant Count % ranking for selected Local Authority (all authorities) out of		n/a 241	93 322
Claimant Count % ranking for selected Local Authority (Large Urban) out of		n/a 18	11 39
Claimant Count % ranking (Large Urban)			
	1	Wokingham	1.16%
	2	Bracknell Forest	1.17%
	3	Arun	1.24%
	4	Preston	1.26%
	5	Fareham	1.53%
	6	South Gloucestershire	1.68%
	7	South Ribble	1.69%
	8	Havant	1.77%
	9	Stockton-on-Tees	1.81%
	10	Wirral	1.81%
		Wokingham	1.47%
		Fareham	2.02%
		Christchurch	2.14%
		Blaby	2.22%
		Bracknell Forest	2.32%
		Rochford	2.33%
		South Ribble	2.38%
		Poole	2.43%
		South Gloucestershire	2.54%
		Oadby and Wigston	2.81%

On selecting the blue cell containing an authority name, a grey box with a blue arrow head appears. Clicking on the grey square will provide the list of authorities to select from. The full list can be seen by using the scroll bar to the side of the list.

Click on the option required for the analysis, and its data will be presented.

I hope this helps. If you have any comments or suggestions, please contact dan.worth@sparse.gov.uk
